

Julian Lipscombe

Director

BArch(Hons) DipArch RIBA

Julian has been at the heart of Bennetts Associates' evolution during his 24 years with the practice. He has a broad range of skills across a variety of project types, with recognised expertise in masterplanning, low carbon design, public sector estate rationalisation and transportation. Current commitments include major urban design commissions for Manchester City Council and a prestigious facility for Jaguar Land Rover in Warwickshire. Previous key projects include award-winning headquarters for various clients (such as PowerGen, John Menzies and Hampshire County Council), new buildings for St Antony's College, Oxford, a series of schemes at King's Cross and 14 surface stations for Crossrail. Julian is an acknowledged public speaker with regular engagements in the UK and abroad. Outside of work, he has spearheaded a series of community projects connected to education and youth sport.
