

Paul Bowman

Associate

BSc(Hons) MArch RIBA

Paul joined Bennetts Associates in 2005 to become an integral member of the team responsible for transforming the Grade II listed Royal Shakespeare Theatre in Stratford-upon-Avon. This role allowed him to broaden his experience of working in building conservation. Paul currently acts as the Project Architect on a number of schemes including the refurbishment of a Grade II listed terraced property for the Grosvenor Estate, and oversees on-site envelope work for the One Bedford Avenue office development. Prior to this he undertook project architect roles on the dramatic weathering steel-clad flytower extension to the Grade II listed Shaftesbury Theatre, and the highly sustainable Dogs Trust rehoming centre in the heart of the Essex Green Belt.

Paul became an Associate in 2015, and is the practice BIM Manager, responsible for leading the development and implementation of the practice's CAD and BIM systems, standards and protocols.

Outside of work, Paul is a Director of The Colchester and North East Essex Building Preservation Trust, a keen cyclist, runner and supporter of Bath Rugby.

University College London, The Bartlett (RIBA Part III) (Dist) 2010

University of Bath 2007, 2005
